Builder with experience shipping customer-facing software, turning customer research into implemented fixes, and automating operations with AI. Computer Science and Media & Communication Studies graduate combining technical execution with clear communication.

## EXPERIENCE

### AI Operations Specialist | Opendoor

June 2026 – Present

- Own end-to-end analytics and operations for utility activation across acquired homes; audit AI-generated outputs against source data to catch discrepancies.
- Built a Python and Snowflake detection system to flag fall-through contracts before they stall renovations; partnered with operations and engineering to debug edge cases and define risk.
- Shipped a daily automated catch net using Gumloop and MCP-connected Claude to surface missed utility turn-on requests in Slack, reducing reliance on manual monitoring.
- Built and maintained a utility provider dataset using Parallel AI, data cleaning, and SQL-based research to give the team a reliable source of truth.

### Customer Experience (CX) Analyst | Hydro One

January 2025 – August 2025

- Owned root-cause research for myEnergy Rewards, a program with 30,000+ enrolled customers, synthesizing survey data and support transcripts into actionable findings.
- Identified enrollment friction, built the data case, proposed a fix, and owned it through implementation, reducing support escalations.
- Built Power BI and Excel dashboards tracking engagement, opt-outs, and kilowatt savings; translated findings for operations teams and executive stakeholders.

### Software Engineer Intern | IO Industries

May 2024 – December 2024

- Built a live React and Node.js lens compatibility calculator addressing a frustration cited in 30%+ of support inquiries; used by hundreds of customers each month. Live tool
- Developed responsive interfaces, integrated REST APIs, and implemented validation and unit testing; collaborated with product and engineering in Agile sprints.

## EDUCATION

Bachelor of Science, Computer Science; Bachelor of Arts, Media and Communication Studies

Western University | September 2021 – May 2026 | GPA: 3.7/4.0 | Dean’s Honour List ×4

## SKILLS & CONTINUED LEARNING

**Product & research:** Customer research, root-cause analysis, problem framing, cross-functional delivery, stakeholder communication

**Build & analyze:** Python, SQL, React, Node.js, JavaScript, Snowflake, Power BI, Excel, Figma

**AI workflows:** Claude, MCP, Gumloop, Parallel AI

Pendo Learning Lab: Becoming an AI-native Product Manager (2026); Google UX courses: Foundations, Empathize/Define/Ideate, Wireframes & Low-Fidelity Prototypes.
