PROFESSIONAL EXPERIENCE

AI Operations Specialist **June 2026 – Present**
Opendoor *(Real Estate Tech)*
Toronto, ON, Canada

- Built and iterated on a utility-activation dashboard with Cursor/Codex, prioritizing ~1,590 homes by freeze risk; helped the team cut open cases 39% (5,808 to 3,527) in 10 days.
- Shipped a daily Gumloop/Claude “catch net” to triage 300+ utility-support requests/day, defining urgency rules from Slack history so leaks and imminent inspections/closings surfaced ahead of routine and untouched requests.
- Led a utility-provider directory from firsthand service-activation research to launch with engineering; defined database and front-end requirements, giving the team provider-specific setup instructions within its shared case platform.
- Created and shared reusable Cursor/Codex skills for application forms and check formatting, cutting form-filling time ~93%, from ~15 minutes manually to ~1 minute with an agent.

Customer Experience (CX) Analyst **January 2025 – August 2025**
Hydro One *(Ontario’s Largest Electricity Provider)*
Toronto, ON, Canada

- Identified recurring customer friction by categorizing support communications in Excel pivot tables; presented annotated charts to inform myEnergy Rewards website and FAQ updates addressing common questions.
- Refined surveys with Research & Insights and visualized satisfaction, enrollment motivations, and notification feedback, giving the team customer evidence to guide communications and program improvements.
- Equipped Marketing with weekly enrollment and campaign-performance charts; compared participation, opt-outs, and electricity savings across seasons to inform recruitment and event decisions for 30,000+ enrolled customers.

Software Engineer Intern **May 2024 – December 2024**
IO Industries *(Electronics Manufacturer)*
London, ON, Canada

- Built and shipped a React/Node.js lens compatibility calculator to help customers choose compatible lenses, addressing a frustration cited in 30%+ of support inquiries; used by hundreds of customers each month.
- Delivered responsive, mobile-first calculator interfaces and REST API integrations with product and engineering; implemented validation, asynchronous state handling, and unit tests to support reliable camera-and-lens selection.

EDUCATION

Bachelor of Science – Computer Science **September 2021 – May 2026**
Bachelor of Arts – Media and Communication Studies
Western University, London, ON

- GPA: 3.7/4.0; Dean’s Honour List ×4
- **Relevant Courses:** Data Structures & Algorithms, Unstructured Data, Software Project Management, Web Design & Content Strategy

Certifications: Pendo Learning Lab — Becoming an AI-native Product Manager (2026)

Google UX course certificates: Foundations; Empathize, Define & Ideate; Wireframes & Low-Fidelity Prototypes

SKILLS

- **Product Thinking:** Problem discovery, customer research, risk-based prioritization, success criteria, iterative delivery
- **Communication & Stakeholder Management:** Journalism-trained interviewing and writing; partner coordination and technical/executive communication
- **Organization & Delivery:** End-to-end ownership, cross-functional execution, process design, team onboarding

TECHNICAL SKILLS

- **Programming:** Python, SQL, JavaScript, Java, C/C++, HTML/CSS
- **Tools:** Cursor, Codex, Claude, Gumloop, MCP, Parallel AI, React, Node.js, Figma, GitHub, Docker
- **Data & Analytics:** Snowflake, Power BI, Excel, Qualtrics, MongoDB
